EXCELLENCE

Kirby Wins Pre- Engineered Metal Building (PEMB) supplier of the year 2016

Kirby Building systems – MEA was awarded Pre-Engineered Metal Building (PEMB) supplier of the year at the Construction Innovation Award 2016.

The award was won by Kirby for its innovative value engineering and manufacturing capabilities in the pre – engineered metal building industry in MEA region.

The award cements Kirby Position as one of the most innovative metal building solution provider in the region, and also gives kirby a competitive edge to cater to its customers in complex commercial and industrial projects.

Kirby MEA was selected by elite panel of judges from the construction industry and the evaluation was based on Kirby’s capabilities in both engineering innovation and manufacturing.

Construction Innovation Awards 2016 was held at Westin Mina Seyahi on 19th October 2016, with 300 construction industry professionals in attendance, the event was managed and organized by BNC Publishing.
